

**Maloney Government Primary School**  
**Science & Agri Science: Promotion Term Test**  
Standard Two Miss S. Ramnath

Write your first and last names in this box please:

**1. Science: Classification of Animals: Vertebrates and Invertebrates**

Click on the correct box for each picture.

jellyfish

☐

vertebrate

☐

invertebrate

dolphin

vertebrate

☐

invertebrate

☐

**2. Agri Science: Preparations before planting: Manual or mechanical method of clearing the land?**

Click on the correct box for each picture.

manual

☐

mechanical

☐

manual

☐

mechanical

☐

### 3. Science: Classification of Animals: Vertebrates: Individuals and Groups

Draw lines to match the animal to its classification.

Animal

Group

ambhibian

reptile

mammal

bird

fish

#### 4. Agri Science: Preparations before planting: Manuring

Click on the correct box for each picture.

Organic manure

☐

Fertilizer

☐

Organic manure

☐

Fertilizer

☐

#### 5. Science: Investigating the Movement of Water through Soils.

Click on the 1 soil type that is the **best** for planting – A, B, C, D, E or F?

A. Sand

B. Silt

C. Loamy Soil

D. Clay

E. Humus

F. Gravel

## 6. Agri Science: The Parts of a Seed

Draw lines to match (the ovals over) the parts of the seed - to their correct names.

seed coat  
or testa

seed food or  
cotyledon

Baby plant  
or embryo

Radicle or  
baby root

## 7. Science: What is the **volume** of the irregular shaped object?

- a). 50 ml
- b). 70 ml
- c). 75 ml
- d). 110 ml

Tick 1 correct answer please.

8. **Agri Science:**

Tick 1 correct answer please.

**What is this building called in Agri Science?**

- a). A Self Watering Grow Box ☐
- b). A Greenhouse ☐
- c). An example of the use of Hydroponics ☐
- d). An example of the use of Aquaponics ☐

---

9. **Science: Mineralogy: Uses of Minerals**

Draw lines to match the minerals to their uses.

**Mineral**

Lead

Diamonds

Silver

Gypsum

**Use**

cutlery

car battery

drill bits

ceiling tiles

10. **Agri Science: How Value-Added Agricultural Products contribute to the economy of Trinidad & Tobago.**

Select the names of these locally made products from the list below each picture.

---

11. **Science: Click on the names of the solids which will dissolve in water.**

salt

oil

sugar

sand

---

12. **Science: Mixtures and Solutions.**

Choose mixture or solution from the drop down boxes.

Salt water

13. **Science: Separation of Mixtures: Magnetism: Magnetic & Non Magnetic Materials.**

Select magnetic or non magnetic from the drop down boxes.

iron filings

Lego blocks

14. **Science: Types of Energy.**

Choose the appropriate Type of Energy from the drop down boxes under each picture.

40 marks in all.
