

NAME: _____

YEAR: 6 _____

Identifying and rearrange the main idea, supporting details and concluding sentence. Then, rewrite the paragraphs in your writing book.

Exercise 1:

- 1 We can also collect waste from washing machines to clean drains, porches and flush toilets.
- 2 It is important to collect water for reuse.
- 3 We can collect rain water by leaving empty buckets outside our homes.
- 4 Thus, it saves our waterbills and helps to conserve the water.
- 5 The water we collect may be used to water plants and wash vehicles.

Exercise 2:

- 1 Water pollution affects people, plants, and also animals.
- 2 Water pollution is an issue that affects mother earth.
- 3 Water is highly polluted near urban areas because there are more people and factories.
- 4 Therefore, we should always do our best to avoid water pollution.
- 5 Water pollution happens when plastics, ships, waste and industrial waste get into rivers or seas.
