

**Listening - multiple choice:**

- |  |   |
|--|---|
| 1) Where did the article say the camera can record?<br>a) anything<br>b) where the bug goes<br>c) inside drains<br>d) on the Moon                      | 6) Where are the scientists from?<br>a) the University of Washington<br>b) the University of Nebraska<br>c) the University of Utah<br>d) the University of Oregon |
| 2) What places do researchers want to explore?<br>a) dirty places<br>b) interesting places<br>c) under beds and closets<br>d) places never seen before | 7) How much does the camera weigh?<br>a) 2.5 kilograms<br>b) 2,550 grams<br>c) 250 grams<br>d) 25 grams   |
| 3) What kind of environments did a researcher say insects can traverse?<br>a) small environments<br>b) crossings<br>c) rocky environments<br>d) wires  | 8) How many frames per second can the camera record?<br>a) 5<br>b) 8<br>c) 10<br>d) 20  |
| 4) What did the researcher say insects could collect?<br>a) samples<br>b) photos<br>c) food<br>d) other insects  | 9) What was the biggest challenge regarding the camera?<br>a) seeing in the dark<br>b) the pixels<br>c) shaking<br>d) making the battery                          |
| 5) What kind of view did the researcher say we would have?<br>a) a fantastic view<br>b) a first-person view<br>c) a terrible view<br>d) a sea view     | 10) For how long did the beetles live after the experiments finished?<br>a) weeks and weeks<br>b) a few months<br>c) at least a year<br>d) about 27 years         |

## 2. SYNONYM MATCH

1. developed
2. explore
3. traverse
4. challenging
5. view
6. wear
7. images
8. capture
9. actual
10. experiments

- a. cross
- b. catch
- c. perspective
- d. put on
- e. tests
- f. travel through
- g. real
- h. invented
- i. pictures
- j. difficult

### Glossary:

tiny - malutki

bug – robak, insekt

traverse - przemierzać

beetle - żuk
