

Making suggestions III: Security problems

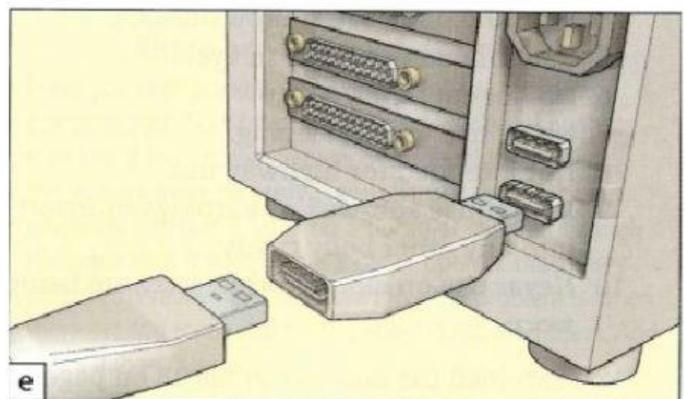

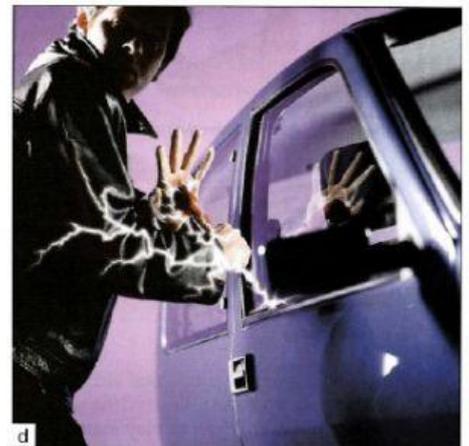

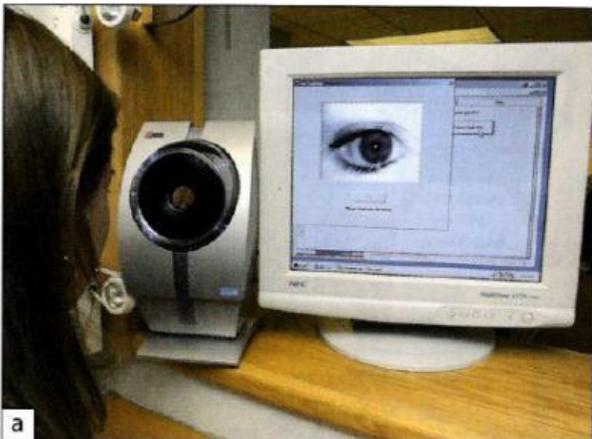

- Lee el título y responde. Sobre qué crees que se tratará este trabajo?
- Qué tipo de problemas de seguridad o informáticos conoces?
- Conoces a alguien a quien hayan hackeado?

1. These are common security problems at the workplace. Study the words in the list.

- stealing?
- spying?
- people making private photocopies?
- people making private telephone calls?
- hackers breaking into your intranet?
- misuse of the Internet by employees?
- unauthorized people entering the company?

2 Look at these security devices. What are they?
How could they be used? What security problems could they solve?

Estos dispositivos de seguridad son reales.
Qué crees que son? Como funcionan? Como pueden ser usados? Qué problemas de seguridad crees que podrían resolver?

- 3  Listen to different people talking about the devices. Match each conversation to the correct picture.

Escucha y une cada conversación con las imágenes correspondientes
