READING PART

1. READ THIS ARTICLE AND STATE IF THEY ARE T(TRUE) OR F(FALSE).

—
10

Would you like to go vegan?

If you are thinking about it, you should read this article. Becoming a vegan means that you choose to have a diet that is completely free from any animal products, such as meat, fish, eggs, milk or cheese. Some of these people decide to change their eating habits gradually while others do it immediately.

A vegan diet may consist of grains, beans, vegetables and fruit and the dishes that result by combining these food items. As this type of diet is nowadays becoming more common, there are many recipes available online and in cookery books to help you make your own vegan food. But you can also buy vegan products like special hamburgers made from beans, vegan ice cream and vegan mayonnaise instead of preparing them yourself. Big chains of supermarkets also offer a wide variety of vegan food and they use a specific labelling system to distinguish them from nonvegan products.

What about eating out if you are a vegan? There are many places today called veggie restaurants, but they sometimes include on their menus some dishes that are not vegan because they are made from ingredients such as refined sugar, eggs or cheese. If you want to go to a real vegan restaurant, you should be careful. Search for information online and look for good reviews. In these eating places, you can enjoy your favourite dishes and try some of the numerous drinks, appetizers and desserts.

1. All veggie restaurants offer vegan food.

2. You can buy vegan food in big chains of supermarkets.

3. Vegan diets include milk and cheese.

4. There are vegan hamburgers, ice cream and appetizers.

5. All the people who become vegans, change their habits quickly.
