Name: Date:

Four different objects were placed in a graduated cylinder 1 at a time. Find the volume of the objects.

Initial Volume:

_____ mL

_____ mL

Volume of the Battery

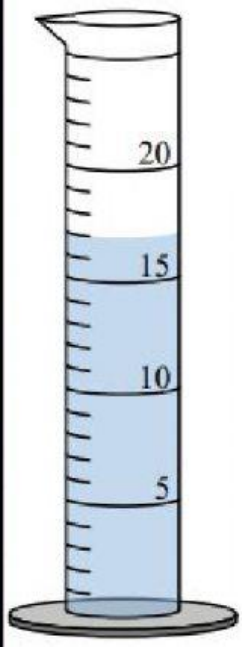

$V = V_f - V_i$

$V =$ ___ mL - ___ mL

Volume of the Battery	= _____ mL

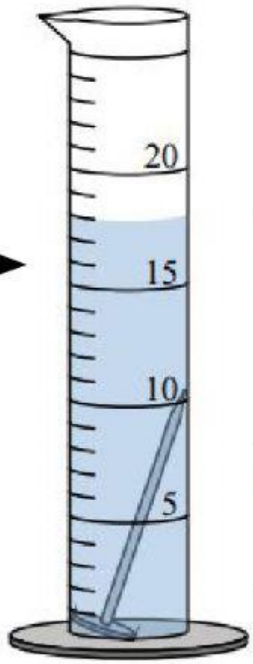

LIVEWORKSHEETS

Four different objects were placed in a graduated cylinder 1 at a time. Find the volume of the objects.

Initial Volume:

_____ mL

Final Volume:

_____ mL

Volume of the Nail

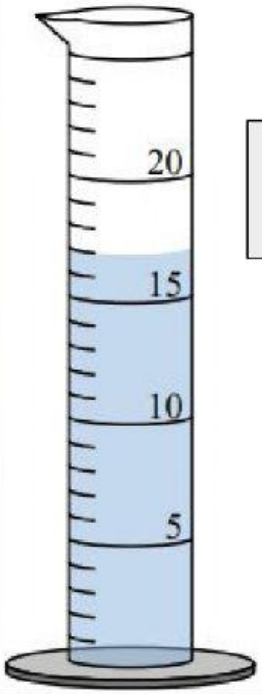

$V = V_f - V_i$

$V =$ ___ mL - ___ mL

Volume of the Nail = _____ mL

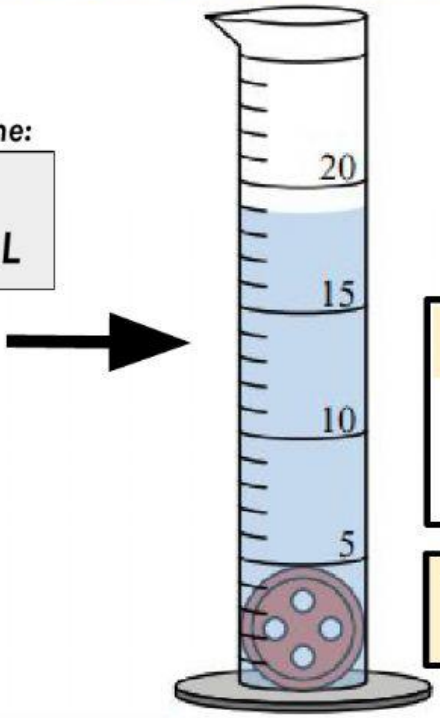

LIVEWORKSHEETS

Four different objects were placed in a graduated cylinder 1 at a time. Find the volume of the objects.

Initial Volume:

_____ mL

Final Volume:

_____ mL

Volume of the Button

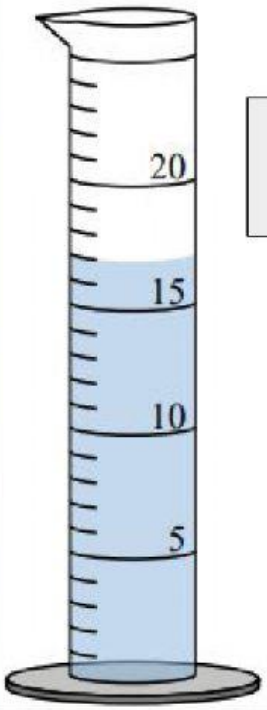

$V = V_f - V_i$

$V =$ ___ mL - ___ mL

Volume of the Button	= _____ mL

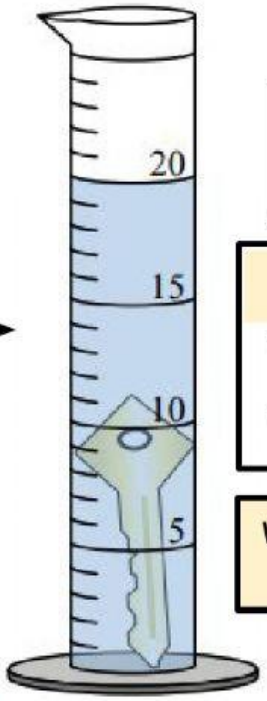

LIVEWORKSHEETS

Four different objects were placed in a graduated cylinder 1 at a time. Find the volume of the objects.

Initial Volume:

_____ mL

Final Volume:

_____ mL

Volume of the Key

$V = V_f - V_i$

$V =$ ___ mL - ___ mL

Volume of the Key = _____ mL
