

1. Read the texts. Match (drag) the titles to the texts. There is one extra title.

A Good Café Team

A Strange Creature

A Bad Cook

A Beautiful Girl

A. Snow White is a young Princess. She is fourteen years old and she's pretty. She has short, black, wavy hair and light brown eyes. Her lips are cherry red and her skin is as white as snow. Snow White is rather short in height, but she has a rather slender figure. She often wears a blue dress and a red bow in her hair. She is really sweet and she can sing and dance well.

B. Shrek is a large green ogre. He looks rather unusual. Shrek is about thirty years old and he's very tall. He has a green round face and no hair at all. He has brown eyes, a big nose and full lips. Shrek's big ears look like antennae. So, he is not attractive and people don't like him or they are afraid of him. But in fact, Shrek is friendly and has a kind heart.

C. In "Ratatouille" Linguini is a poor young man. He is rather slim, with curly brown hair and brown eyes. Linguini works in a restaurant but he's rather bad at cooking. He makes friends with a rat, Remy, who is an excellent chef. Together they open an unusual bistro where Remy cooks and Linguini serves the guests. He does it on skates because he's very good at skating.

2. Match the short texts with the animals they describe. Two animals are extra!

Monkeys

Tigers

Iguanas

Hamsters

Dolphins

Elephants

Cats

A. They live in Africa and India mostly. These are the world's largest land animals. Adults can weigh as much as six tons. They drink more than 100 litres of water each day. The animals have got big ears and a long trunk which they use like hands to pick up things.

B. Compared to other animals, they are very intelligent. They live in the sea and are very fast-moving. They are very friendly with people. They often jump out of the water and enter the water again gracefully. They communicate with each other by clicking, whistling and other sounds.

C. They have long bodies, long tails and rather short legs. The tail is good to keep balance when climbing. The animals are green or light grey. They mostly like eating plants including leaves and fruit. They have very sharp teeth to help them eat up leaves and plants.

D. They are very different. Most of them have tails. Some of them live on the ground, while others live in trees. They eat a variety of foods, such as fruit, insects, flowers, and leaves. But lots of people believe bananas are their favourite fruit.

E. They are a very common pet worldwide. They have short tails, small ears and big cheeks where they can keep seeds, nuts and fruit until they can store them somewhere. They usually sleep during the day and are awake and active during the dark hours of the night.
