READING

Victoria, Canada by Olivia Wells

Victoria—the "City of Gardens"—is my city, and it's a great city! It's very old, it's near the ocean, and it has some beautiful buildings. It's a great place for people with bikes, too. (My brothers and I love our bikes!) The population of Victoria is 85,000, but about 3,000,000 people come to the city every year. What are the best places to see?

Victoria is famous for its parks. Butchart Gardens is very beautiful in the summer and it's very popular with visitors. Beacon Hill Park is next to the ocean and it's nice at night. My favorite place is Vic West Skatepark. It's an awesome place for skateboarders like me! It's really big and there's a skateboarding competition there every June.

Craigdarroch Castle is an interesting place to visit. This big house is more than 100 years old and it has 39 rooms. The living rooms have a lot of chairs, tables, big mirrors, lamps, and old paintings. The bedrooms are cool but there aren't any TVs or game consoles in them!

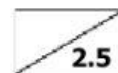

Victoria's Chinatown is fantastic. There are a lot of little Chinese stores and restaurants. Fan Tan Alley is a famous street in Chinatown. It's only about one meter across in some places. It's a great place to get Chinese food in Victoria. There are some very good Japanese, Mexican, Spanish, and Turkish restaurants in Victoria, too. But my favorite restaurant is Brazilian!

Come and visit Victoria!
