

**A** 写出乘法算式及找出积。 TP3

1

$$\boxed{\phantom{000}} \times \boxed{\phantom{000}} = \boxed{\phantom{000000}}$$

2 每一台手提电脑的售价是 RM2 980。

$$\boxed{\phantom{000}} \times \boxed{\phantom{000}} = \boxed{\phantom{000000}}$$

|                              |
|------------------------------|
| RM2 980                      |
| $\times \quad \quad \quad 3$ |
| <hr/>                        |
| RM                           |
| <hr/>                        |

**B** 算一算。 TP3

1  $4 \times \text{RM}2\,315.40$   
=

2  $5 \times \text{RM}1\,972.30$   
=

3  $6 \times \text{RM}1\,578.65$   
=

**C** 把正确的答案连一连。 TP3

1  $10 \times \text{RM}6.25 =$

2  $100 \times \text{RM}6.25 =$

3  $1\,000 \times \text{RM}6.25 =$

RM6 250

RM62.50

RM625
