

UNIT : WILDLIFE

WRITING EXERCISE

Read the sample information on the Philippine Eagle and complete the information on the Galapagos Penguin. Drag the boxes below to fill in the blanks. You can refer to the blue box for some clues.

The Philippine Eagle

What is it?

The Philippine eagle lives in the forests of the Philippines. Adult birds can be one metre long and can weigh eight kilos. It's one of the biggest birds in the world. It eats snakes and small animals **such as** bats, rats and small monkeys.

What's the problem?

The Philippine eagle is now in danger and it's very rare. The biggest problem is human activity **like** farming.

How can we help?

You can find information on the website of the Philippine Eagle Foundation. The website explains how we can help to protect it. **For example**, it's possible to 'adopt' an eagle.

The Galapagos Penguin

What is it?

The Galapagos Penguin lives in the _____ of the northern pole. Adults penguins can be _____ long and can weigh _____ kilos. It eats small fish _____ and mullets.

What's the problem?

The Galapagos penguin is now endangered and it's very rare. The biggest problem is human activity _____.

How can we help?
