

Student's name:
Book: Full Blast! A2 Units: 1 and 2

READING

1. Lauren is a 17-year-old student who loves fashion. Now, she is reading a magazine article about eye style.

EYE STYLE

The ancient Egyptians used plants and minerals to decorate their eyes. They wanted to make their eyes look bigger and more like cat's eyes. Today we use eye shadow, mascara and eye liner. And not just women try to make their eyes appear more attractive. Pop stars like David Bowie and Marilyn Manson are famous for their **exotic** eyes.

These days we can use crazy contact lenses to decorate our eyes. We can **temporarily** change the color of our eyes from blue to green or from brown to violet. Or we can make our eyes dramatic with a pair of designer lenses.

Contact lens companies sell lenses that look like the eyes of cats, **demons**, dragons, aliens and vampires. They have all-white lenses, all-black lenses and every color in between.

If you want something really different, you can buy **striped** lenses, **spotted** lenses or checked lenses. Other lenses have spirals, stars, crosses and numbers. Or why not buy some lenses with butterflies, spiders, bats or flowers?

If you decide to try decorative contact lenses, visit a qualified **optician** for advice. Always buy lenses with a prescription and make sure you get the right size and type of lenses for your eyes.

2. After reading the article, choose the correct option: TRUE, FALSE or NOT MENTIONED.
(2x6=12)

- a- Many Egyptians' eyes looked like cat's eyes. _____
- b- Women and men try to make their eyes appear more attractive. _____
- c- People use contact lenses in special celebrations. _____
- d- You can buy decorative contact lenses in any store. _____
