

Name:

Coronavirus symptoms

Grade:

People with COVID-19 may have a wide range of symptoms, ranging from mild symptoms to severe illness.

Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms may have COVID-19:

cough

sore throat

fatigue

fever

lose of smell and taste

shaking chills

shortness of breath

headache

diarrhea

You may not show any of these symptoms and be infected. This is what we call an **asymptomatic** person. Very little is known about this cases. But careful! **You're still at risk of spreading the coronavirus to others.**
