READING (page 30 & 31)

Please watch this video and answer the following questions.

2 Look at the pictures. What's the weather like in ...

London? Tokyo? Sydney? Athens? Madrid? New York?

In London it's cold and foggy.

Drag the word into the blanks.

1. In Tokyo it's _____

cold

warm

sunny

2. In Sydney it's _____ and _____

stormy

cloudy

3. In Athens it's _____ and _____

hot

wet

4. In Madrid it's _____ and _____

snowy

rainy

5. In New York it's _____ and _____

Exercise 3: Write the word in the boxes provided.

1. In which city is there a heatwave?
2. In which city could you hear thunder and see lightning?
3. In which city could you get caught in a blizzard?

Watch the video and try to read the text on your own. After that, please answer the questions given below.

SAVED BY AN MP3 PLAYER!

Sophie Frost, a schoolgirl from England, felt very lucky when her grandmother gave her an MP3 player as a present. She didn't know just how lucky she was, however. When an unexpected accident happened a few days later, the MP3 player probably saved her life!

14-year-old Sophie was going for a walk with her boyfriend, Mason Billington, when it started raining. The young couple took shelter from the rain under a tree and were sitting together when lightning struck. The lightning hit them both and they lost consciousness. Then Mason woke up and carried Sophie to the nearest road in order to get help. A car

stopped and took them to hospital. Sophie had some burns on her chest and legs. She also had some damage to her eyes and ears, but fortunately she quickly recovered.

How did Sophie's MP3 player prevent her from having serious injuries? When the accident happened, she wasn't listening to music on the player, but was wearing it around her neck. Doctors believe that the lightning travelled through the wire of the MP3 player instead of through Sophie's body. Even though she was lucky this time, one thing's for sure. The next time there's a storm, she and her boyfriend won't sit underneath a tree!

Word check
take shelter consciousness burn damage recover injury wire

DID YOU KNOW?
Lightning can travel at 150,000 km per second!

3 Answer the questions. **Expert**

Exercise 2: Put the events in order by matching it with the number.

- a) It started raining.
- b) Sophie went to hospital.
- c) Sophie and her friend went for a walk.
- d) Sophie's grandmother gave her a present.
- e) An accident happened.

Exercise 3: Answer the questions.

1. What did Sophie's grandma give her? (line 7)

2. Where were Sophie and her friend when lightning struck? (line 13)

3. How did Sophie go to hospital? (line 18)

4. Where was Sophie hurt? (line 20, 21, 22)

5. Where was Sophie's MP3 player when the accident happened? (line 28)

6. What part of the MP3 player did the lightning go through? (line 40)
