

The man **sees** lightnings outside.

The man **goes** outside to see the bonfires.
He has never seen them before.

Next week, he **shapes** up a stone for hunting.

Suddenly, there is a light outside.

From now on, he makes fire by himself.

He **causes** fire by chance.

Then, rain **starts** and **douses** the fire.

One lightning **causes** some bonfires.

The man **eats** raw meat.
