

VEXcode VR Alpha

Lesson 1: My First Program in VEXcode VR

Direction: Choose the correct answer for each item.

Part I: Identify the parts and functions of the VEXcode VR interface by selecting the correct name and function of each part from the drop-down menu.

No.	Name of the Part	Function/Description
1		This is where to get the command blocks to be used in programming.
2	Programming area	
3	Playground window	
4	Playground launcher	
5		This shows the text-based code of the program.
6		This gives more information about a selected block.

Part II: TRUE or FALSE. Select TRUE if the statement is correct and FALSE if the statement is wrong.

7. VEXcode VR needs to be installed to a device for it to be used.
8. There is no need to create an account in VEXcode VR to save your projects.
9. The options for creating, saving and opening a program is under the **Activities** menu of the VEXcode VR interface.
10. The **Drive for** block moves the drivetrain for a specific distance only.
