

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

I read the first number and jump to it on the number line. I read how many to subtract and draw the backward hops on the number line. I write the answer.

أَقْرَأُ الرَّقْمَ الْأَوَّلَ وَأَقْفُزُ إِلَيْهِ عَلَى خَطِّ الْأَعْدَادِ. أَقْرَأُ الْعَدَدَ الَّذِي يَجِبُ طَرْحُهُ، وَأَرْسُمُ نَفْسَ عَدَدِ الْقَفْزَاتِ إِلَى الْخَلْفِ عَلَى خَطِّ الْأَعْدَادِ، ثُمَّ أَكْتُبُ الْجَوَابَ.

$$7 - 1 =$$

$$5 - 3 =$$

$$6 - 4 =$$

$$9 - 5 =$$

$$8 - 7 =$$

$$3 - 3 =$$
