

ENGLISH FOR SCHOOLS PROGRAM  
THIRD TERM CLASSWORK  
UNIT 5: IT'S A SMALL WORLD

Date:  
July/ 2021

Teacher: Jose Luis Pérez Correa

Student's name: \_\_\_\_\_

Date: \_\_\_\_\_

Grade: 6<sup>th</sup>

Time: 20 minutes

Level: B1

Goal: To review and practice using vocabulary related to organisms and their habitats.

1 INSTRUCTION: Listen and read. Fill in the blanks with the correct word from the unit's vocabulary according to what you hear.

We share our planet with millions of small creatures. Cool spiders, beautiful striped butterflies, ugly bugs, cute hamsters, and fascinating fish. Can you think of more little creatures that live on Earth?

Eyelash mites are 0.3 millimeters long, you can only see them through a  
\_\_\_\_\_. They look \_\_\_\_\_ but they're very common.

\_\_\_\_\_: Our eyelashes

Characteristics: These \_\_\_\_\_ eat dead skin \_\_\_\_\_.  
They crawl around our skin at night.

This seahorse is an orange fish that is just sixteen  
\_\_\_\_\_ long. It's smaller than a human's and has a long  
\_\_\_\_\_ tail.

\_\_\_\_\_: warm water, near coral.

Characteristics: it uses camouflage. It grabs food that floats by.  
\_\_\_\_\_ seahorses have babies.

The \_\_\_\_\_ bee hummingbird is the smallest bird in the world. (It's  
about 5 and a half \_\_\_\_\_ long.)

The \_\_\_\_\_ is bigger. Its eggs are smaller than coffee beans.

Habitat: near flowers.

Characteristic: It can move its strong wings eighty times a second.
