## READING

Read the text and answer the questions.

### Safety First At Home

*We all think that we are not going to have any accidents and that our homes are safe places. However, we've just seen that accidents which take place at home cause as many deaths as car accidents. Try to stop accidents from happening. Read what you can do to make your home safe.*

#### Did you know

- that about ten million accidents happen every year in the U.S.A.?
- that about one hundred thousand people die as a result?
- that accidents in the home are the cause of about 1/3 of all deaths from accidents?
- that car accidents are the cause of another third of the deaths?
- that the number of Americans who are killed in accidents at home, at their workplaces and on the streets is higher than the number of Americans who die when there is a war?

#### The most common accidents are falls in the house

- Many children and adults have accidents because of dangerous stairs. Make sure stairs are safe.
- Don't leave children's toys and other things lying around on floors and stairs.

#### Keeping the kitchen safe

- Don't hang curtains over or near the oven.
- Never leave hot coffee or water too near the edge of the oven or the table.
- Keep matches in places where young children can't reach them.
- Never try to put out burning oil with water. Throw salt or sand over it or cover it with a towel.

1. How many people die from accidents in the U.S.A. each year?

---

2. Apart from accidents in the home, what other type of accidents lead to 1/3 of all deaths from accidents?

---

3. What do most people believe about their homes which is not true?

---

4. What causes people to fall when they are at home?

---

5. What shouldn't you do to burning oil?

Hi!  
Listen, I have a problem and I really need your advice. I was supposed to meet Anna last night at the movie theater but I totally forgot about it. It's the third time I've let her down and now she is really upset. She won't even speak to me. What can I do?

Julie
