

Subject: English Project 2- Week 2

TOPIC: HEALTHY FOOD

READ.

Food groups

We all need to eat healthy food. Potato chips, cookies and Candy are delicious, but you cannot eat a lot of it and be healthy. Eating healthy food is good for our bones, muscles and even our hair and nails. It is important to choose from all of the food groups that you can find in your house. For example, grains are

important for getting you the fiber that your digestive system needs, and you can find them in rice, oatmeal and bread. Milk, yogurt, butter and cheese are important to get strong bones because these dairy products have a lot of calcium. Proteins like beans, fish, meat and nuts are as important as eggs and chicken in your daily diet. And finally, combining everything with a lot of vegetables and fruits will help you to receive the minerals and vitamins that your body needs.

Why is this food group important to eat at your meals?

Look at the pictures according to the vocabulary.

<u>Vegetables</u>: They have vitamins, minerals, and fiber that help our body do it's job like pump blood through our body, digest food, and clean out our cells.

MINISTERIO DE EDUCACIÓN

• <u>Fruits</u>: They have vitamins and phytonutrients that keep us from getting sick (vitamin C) and even avoid diseases.

Protein: Helps us to grow muscles!

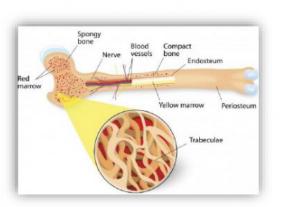

• Grains: Give us energy to run and play

Dairy products

Dairy: Helps build our bones.

- 1.- Test your family. Ask your family the following questions:
 - a. What does 50% (per cent) refer to in the reading?
 - Give two examples of dairy products.
 - c. Do dairy products contain calcium?
 - d. Give two examples of grains.
