

Questions 1–5

Complete the summary using the list of words and phrases, A–J, below.

Fenn's Memory Experiments

The groups in the study saw or heard lists of words at 1^G..... times of the day. After 2 hours, the groups tried to identify these words correctly in a test. Before the test, one group had 3 sleep and chose the words in the evening. The other group had their test in the morning.

In three experiments, the results were 4 : the groups that had slept during the experiment remembered 5 words correctly than the other groups.
