F Choose the correct answer.

Dear Marsha,
I'm not sure what to do. I'm thinking of becoming a vegetarian, but some of my friends say it's a bad idea. They say that if I (1) eating meat, my body won't get all the things it needs to stay healthy. Are my friends right?
Thanks,
Yuri, age 14

Dear Yuri,
Millions of people are vegetarians and they're perfectly healthy. You have to be careful, though if you (2) up eating meat completely, and only (3) chocolate and crisps, that would obviously be very bad for you! If people don't eat properly, they (4) ill. It's that simple. If you eat lots of fruit and salad and beans, you (5) get all the things you need to stay healthy. But – you're only 14 years old. If you (6) at home with your parents – and you probably do – you'll have to ask them what they think too. If your mum cooks for you, (7) it be difficult for her to make you special meals. If I were you, I (8) think about this carefully and maybe wait until you're a bit older before making such a big decision.
Marsha
