

Ubica en orden de menor a mayor cada uno de los números.

Cuenta y escribe el resultado

The image shows three place value charts, each with a tens column and a ones column. The first chart has 10 tens blocks. The second chart has 3 tens blocks and 70 ones blocks. The third chart has 5 tens blocks and 50 ones blocks. This illustrates the concept of decomposing 100 into different combinations of tens and ones.
