

Review 7

TASK 1 Read the text below and complete it by writing one word in each gap.

The invention of the microwave oven

We wouldn't have microwave ovens today but _____ an accidental discovery made by Percy Spencer. Spencer was an American engineer _____ was working on radar technology in the 1940s. He was experimenting with microwaves one day, and _____ sooner had he completed the experiment _____ he realised a chocolate bar in his pocket _____ melted. Supposing he knew the outcome beforehand, he _____ not have had the chocolate bar in his pocket. _____ discovered the effect, he tried to repeat the process on popcorn, thinking it would pop. As it turns out, he was spot _____ – the experiment was a success. His third attempt was with an egg, _____ ended up exploding in his face. _____ the thoughtful engineer that he was, he decided to make a metal box – the first real 'oven' – to experiment using a controlled environment. Only _____ did he know the microwaves were heating the food. Spencer decided to get his money's _____ on the invention, and 1945 was the year _____ he took out a patent. The cutting _____ technology was first used publicly in 1947, when a company splashed _____ on a machine that dispensed hot dogs in New York City's Grand Central Terminal.
