Activity 10

Read the text and state whether the statements below are True or False.

Our old refrigerator was broken because of the electric shock last night. Then, my father asked me to go with him to the kitchen store to buy a new one.

In the kitchen store, I saw lots of things. In one corner, I saw refrigerators, blenders, mixers, washing machines, fans, and other electronic devices. In the other side, I saw plates, bowls, glasses, mugs, spoons, knives, and other cutlery tools. There, I also saw some cooking utensils, like woks, frying pans, pans, stoves, and so on.

When we saw the price, my father said, "I think we had better fix our old refrigerator." Then, we went home with only 1 set of new plates, glasses, and spoons with Doraemon picture on it — my favorite cartoon character on them.
