

## READING PRACTICE N°4 – II BIMESTRE

**D. precisado:** Identifica información explícita y relevante que se encuentra **en un texto**, y la distingue de otra semejante

### 1 Read and match. Answer the questions.

- |                            |   |                                      |                    |
|----------------------------|---|--------------------------------------|--------------------|
| 1 Did you                  | ← | a give you homework last class?      | _____              |
| 2 Did your best friend     | → | b see your best friend this morning? | <u>Yes, I did.</u> |
| 3 Did your English teacher |   | c win last weekend?                  | _____              |
| 4 Did your football team   |   | d eat at your house last week?       | _____              |

### 2 Read and write the answers.

Olivia lives in the city, but last Saturday she visited her friend Joe's farm. Olivia always eats at a table in the city, but Joe loves eating outside so they had a picnic. Olivia never sees any animals in the city, but there were some deer in the field. Joe likes healthy food so they ate carrots and tomatoes with their sandwiches. They had milk from the cows on Joe's farm too. After the picnic, Joe wanted to go swimming.

'Is there a swimming pool on your farm?' Olivia asked.

Joe laughed.

'No, there isn't, but there's a beautiful river.'

Joe's farm was very different from the city and Olivia had a great day.
