I.   Read and underline the the correct answer.

58% Eat at a restaurant at least once a week

Most Americans continue to eat out at least one time each week.

Fifty-eight percent (58%) of American Adults now say they are dining out at least once a week, according to a new Rasmussen Reports national telephone survey. That's virtually unchanged from January and includes 40% who say they typically go out to a restaurant once a week, 14% who go out two or three times a week and four percent (4%) who dine out more than three times a week. Thirty-nine percent (39%), on the other hand, rarely or never eat at a restaurant.
