

Work sheet 5 alcohols,phenols and ethers

Match the following:

- | | |
|---|--|
| 1.Reaction of propanone with methylmagnesium bromide | sp^2 carbon carrying more number of hydrogen atoms |
| 2. In hydroboration boron atom gets attached to | Markonivkov's rule |
| 3. Lithium Aluminium hydride | ketones |
| 4. addition reaction in case of unsymmetrical alkenes | 2-methyl propan-2-ol |
| 5. Tertiary alcohols are produced from | strong reducing agent |
