

Task 1: Listen to the audio and fill in the blanks with the correct answers.

The worksheet is titled "Unit 6 Go Green" and features a central illustration of a sad Earth character with its arms raised in distress. Surrounding the Earth are three photographs: a polluted river labeled "Water", a deforested landscape labeled "Land", and industrial smokestacks labeled "Air". To the right, a "Warm-Up" section contains a text box with a paragraph about environmental actions and a list of five words in green boxes: "water", "plants", "land", "air", and "protect".

## Unit 6 Go Green

Let's talk.

Water

Land

Air

### Warm-Up

Go **green** means the actions we should take to \_\_\_\_\_ the environment. The environment includes the \_\_\_\_\_, the \_\_\_\_\_ and the \_\_\_\_\_ around us.

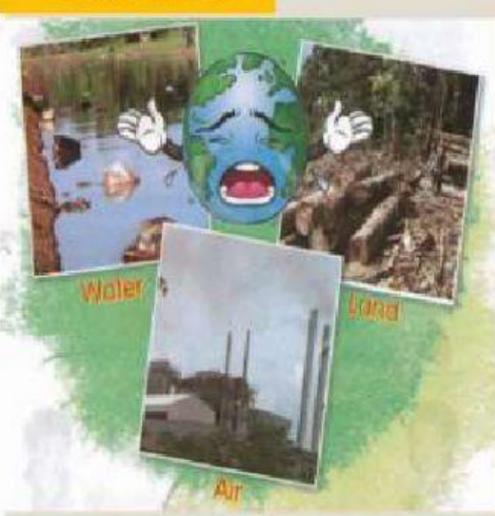

**Green** is chosen to represent the colour of the \_\_\_\_\_.

water    plants    land

air    protect

Task 2: Listen to the audio and fill in the blanks with the correct answers. Record your voice and send to our Telegram group.

### Let's Do

**What are the issues portrayed in the pictures?**

The three issues are \_\_\_\_\_ pollution, \_\_\_\_\_ pollution and air \_\_\_\_\_.

**How does air pollution happened?**

Air pollution is caused by the release of toxic \_\_\_\_\_ into the air by the \_\_\_\_\_, \_\_\_\_\_ or open \_\_\_\_\_.

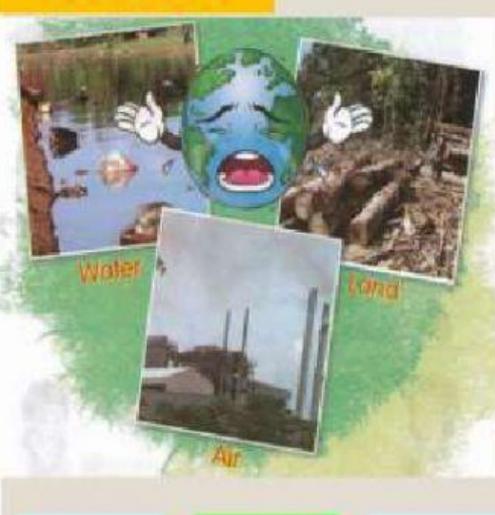

**How does water pollution happened?**

Water pollution occurs when the toxic \_\_\_\_\_ enter the \_\_\_\_\_ and \_\_\_\_\_.

**How does land pollution happened?**

Land pollution happens because people throw \_\_\_\_\_ or toxic materials into the \_\_\_\_\_.

### Let's Do

**What can we do to overcome these issues?**

We should practise 3R; \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_. We should appreciate our natural resources.
