

## REVISION FOR THE FINAL TEST\_ READING PART\_ G7

**I- Read and choose the correct word in the box to fill in the blank. There is an extra word.**

There are three major forms of fossil fuels: coal, oil and natural gas. All three were formed many hundreds of millions of years ago before the time of the dinosaurs - (1)\_\_\_\_\_, we call them fossil fuels.

Fossil fuels (2)\_\_\_\_\_millions of years to make. But they are not unlimited. We are using up the fuels that were made more than 300 million years ago. They are not (3)\_\_\_\_\_like solar power, wind power, hydro power or biomass. Once they are gone they are gone. So, it's best not to waste fossil fuels.

We can save fossil fuels (4)\_\_\_\_\_conserving energy. One simple way to do this is to turn off appliances, TVs and radios that we are not using. We can also turn off lights when no one is in the room. Another way is to go by bike or walk instead of (5)\_\_\_\_\_cars or motorbikes.

11. A. found                      B. founded                      C. find                      D. finded  
 12. A. location                      B. place                      C. position                      D. happen  
 13. A. best                      B. more                      C. most                      D. much  
 14. A. During                      B. At                      C. From                      D. With  
 15. A. fascinated                      B. fascinating                      C. bored                      D. boring

**IV- Read and choose the correct answer.**

Do you know a mouse which typically wears red shorts, large yellow shoes, and white gloves? Yes, it must be Mickey Mouse, one of the world's most recognizable characters. He was created by Walt Disney and Ub Iwerks at the Walt Disney Studios in 1928 and has been the official mascot of the Walt Disney Company. Mickey often appears alongside his girlfriend Minnie Mouse, his pet dog Pluto, his friend Donald Duck and Goofy, and his nemesis Pete.

Mickey officially made its first public appearance in the short film Steamboat Willie (1928). It was one of the first sound cartoons. He went on to appear in over 130 films, including The Band Concert (1935), Brave Little Tailor (1938).

places, have fixed solar cells and solar panels on the roofs of their houses or businesses to lower their energy costs.

Experts say that huge installation of solar panels in sunny regions could generate enough electricity to supply an entire country. Capturing this energy can help overcome our **diminishing** energy supply. New ways to capture this energy are being developed all the time to maximize efficiency.

21. What is the source of solar energy?
- a. solar panels
  - b. sunlight
  - c. electricity
  - d. photovoltaic cells
22. Solar cells are used .....
- a. to collect energy from the sun
  - b. to convert sunlight into electricity
  - c. to provide sunlight to houses
  - d. a and b are correct
23. Which of the following statements is true?
- a. Solar cells absorb all of the light energy from the sun.
  - b. The light energy causes the particles to move faster to make electricity.
  - c. Solar energy can be used to power homes and businesses only.
  - d. Large solar panels have been placed on cars and appliances.
24. As used in line 10, 'abundant' mostly nearly means.....
- a. unlimited
  - b. dangerous
  - c. plentiful
  - d. clean
25. Where have people fixed solar panels?
- a. inside their houses
  - b. in the sunset places
  - c. on the roofs of their houses
  - d. anywhere outside their houses
26. As used in line 16, 'diminishing' mostly means.....
- a. deceasing
  - b. restoring
  - c. increasing
  - d. unending
27. According to the passage, all of the statements are true EXCEPT.....
- a. the sun provides a large amount of energy.
  - b. people use solar energy to reduce their energy costs.
  - c. solar energy could provide enough electricity for the whole world.
  - d. scientists are constantly developing new ways to capture the sun's energy.
