DYGESTIVE SYSTEM

1. Drag the name to the correct place.

esophagus

large intestine

anus

stomach

small intestine

mouth

2. Match the words to the correct answer.

esophagus

large intestine

anus

stomach

small intestine

mouth

It has teeth that break the food into small pieces.

It is a long tube. Food goes down here to the stomach.

It is like a bag. The food stays here for about three hours.

It is a very long thin tube. There are lots of blood vessels around the tube.

What our body doesn't need goes out through it when we go to the toilet.

It is a wide tube. It connects to the anus.
