Saving the rainforests of South America

- 33 Every day, thousands and thousands of trees are cut down in the Amazonian
rainforest. This does enormous damage to the local environment, and also
- 34 possibly affects the world's climate. But how can we save up the rainforests
- 35 from destruction? First of all, we have to make the local people aware that of
- 36 the damage to they're doing. Secondly, there need to be more police in the
- 37 area preventing people from cutting down trees. A lot of the people who cut
- 38 them down do it illegally. If they were more afraid for of getting caught, they
- 39 might stop. It's a very serious about problem, and there's no easy solution,
- 40 but we're short of time. It won't be long before the rainforests disappear
completely.
