

GRADE 3

QUESTION 1

Read the story and answer QUESTIONS (1 - 4).

(1)

On Tuesday last week, Peter visited a dentist after school. It was his first visit to the dentist.

When the nurse called his name, he was very scared to go to the doctor's room with her, but his mother begged him. The nurse put him on the chair and explained to him what the doctor was going to do to him. Peter was not afraid anymore because he remembered that he cannot eat well because his two teeth were painful.

The nurse showed Peter how the doctor was going to move the chair up and down when he was to take out those painful teeth. Peter loved this moving chair. The doctor came and was very friendly to him. He asked him his name and the school he was going to. He also asked him what he wanted to be after finishing his schooling. He told him that he wanted to be a doctor. The doctor started giving him four injections and he did not cry during all of them.

Then the doctor left Peter for few minutes before taking the tooth out, one at a time. He gave him a gift for being a good boy, because he did not cry. In the gift box, he got a toothbrush, toothpaste and a small book to read on how to take care of his teeth. Peter was very happy and thanked the doctor for the gift by showing a smile and then went home.
