2) Now let's read this text about Seba's town. *Leamos este texto sobre la ciudad de Seba.*

*My city is small but it is very **crowded**. There are lots of people! There are different places to visit here. There is a beautiful square and a park to play and do exercise. There are two cinemas to watch movies with friends or family. I go to the cinema twice a month. There is a big museum to learn art. There is one big library with lots of books. There are lots of restaurants and shops! I like helping my mum when she goes to the centre. We always go the supermarket to buy food and the grocery shop to buy fresh vegetables! But my favorite place to visit is the candy shop! In my town there isn't any airport. And there aren't any zoos. People in my town don't like animals in cages!*
