

PROOFREADING. Read the journal entry and find the 5 misspelled words and write them down of the lines below

October 10---- I finished all morning.
Then I hurried back to the harbor to
meet Ben. We saw a female seal
swimming in the harbor water. She
looked like she was grining at us. I
choped up some fish and tossed it to
her. The sea ate the fish right away. Ben
smiled and said, "I guess she's not
interested in saveing the fish for later."
The seal swam away. We wraped up the
rest of our fish and brought it home. I
wonder if we'll see that seal again.
