LEARNING ENGLISH FORUM

Beach_Boy asks:

I was in the USA on a language course last summer. It was a fantastic learning experience! People were so friendly and welcoming. I'm going on a British summer course this year. I heard that English people are more unfriendly and polite. Is that true? I'm worried about the language as well. I learned American English at school, and I've heard that British English is different. I'm worried that I'll misunderstand everyone, make errors and appear impolite. Can anyone help?

- 1 Which sentence best summarises Beach_Boy's situation? ☐

- A He wants to learn how to speak well and be polite to his American and British guests.
- B He is concerned that his trip to America would not be as fun as last year's trip to Britain.
- C He is worried about making mistakes in his language and behaviour when he goes to Britain.

RAWANG – The state government is forking out RM 1 million for two high-tech drones. They will be used to monitor rivers in Selangor.

"These drones are able to collect water samples even in remote areas. They can detect individuals in the dark. If there are any suspicious activities, we will be given early warning," said a water management executive.

Authorities are taking active steps to prevent river pollution activities from happening again by using advanced technology and imposing heavier penalties on guilty parties.

- 2 Which of the following is true about the news? ☐

- A The drones cost RM 1 million each.
- B Water pollution has not happened before at water sources.
- C Low lighting does not affect the drones' ability to monitor the rivers.

Erosion in America

Erosion of America's farmland by wind and water has been a problem since settlers first put the prairies and grasslands under the plough in the nineteenth century. By the 1930s, more than 282 million acres of farmland were damaged by erosion. After 40 years of conservation efforts, soil erosion has accelerated due to new demands placed on the land by heavy crop production. In the years ahead, soil erosion and the pollution problems it causes are likely to replace petroleum scarcity as the nation's most critical natural resource problem.

3 As we understand from the reading, today, soil erosion in America ☐

- A is worse than it was in the nineteenth century.
- B is the most critical problem that the nation faces.
- C causes humans to place new demands on the land.

Subject: Possible help with product design

Dear Will,

As you know, we have been working on the new perfume that we are launching in April and we are unsure about some of the packaging details. We have seen some of your creative work in the sales department and we think you have a very good eye for detail.

Do you have some time before close of business this Friday to sit down with us and talk through some of our designs? We would truly appreciate your advice on this. It shouldn't take longer than two hours of your time and we would be happy to clear it with Patricia, your department head, if necessary.

Best regards,

Amy Pickett

Head of Department
Product Design

5 What is Amy requesting?

- A For Will to design the packaging of the new perfume.
- B For Will to discuss the packaging details of the perfume with the product design department.
- C For Will to seek permission from Patricia for a meeting with the product design department on Friday.

Opera

Opera refers to a dramatic art form, originating in Europe, in which the emotional content is conveyed to the audience as much through music, both vocal and instrumental, as it is through the lyrics. By contrast, in musical theatre an actor's dramatic performance is primary, and the music plays a lesser role. The drama in opera is presented using the primary elements of theatre such as scenery, costumes, and acting. However, the words of the opera, or libretto, are sung rather than spoken. The singers are accompanied by a musical ensemble ranging from a small instrumental ensemble to a full symphonic orchestra.

- 8 It is pointed out in the text that opera ☐

- A is often performed in Europe.
- B has developed under the influence of musical theatre.
- C is a drama sung with the accompaniment of an orchestra.
