### Racing the tube.

The latest craze in big cities with underground trains is "racing the tube". The idea is to run faster than an underground train! First you choose two underground stations that are very near to each other. Then you buy a ticket and get on a train that is travelling to the first station. When the train arrives at the station, and the doors open, you get off the train, go up the stairs or escalator - very quickly! - and run to the next station. You can't take a taxi or catch a bus or ride a bicycle. You have to run. But watch out for traffic and don't lose your way! It's easier if someone helps you. For example, when you have to cross the road, they can warn you if cars are coming. When you arrive at the second station, you have to catch the same train. It's more difficult than it sounds!
