

Ejercicio 1: Calcula el volumen del prisma, en las dos posiciones.

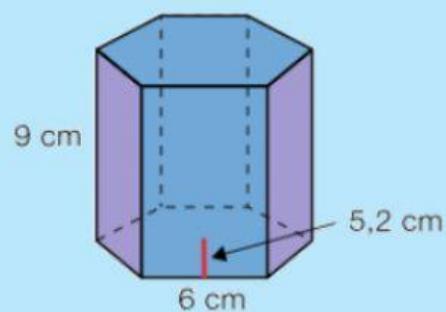

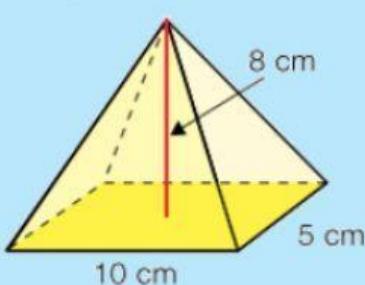

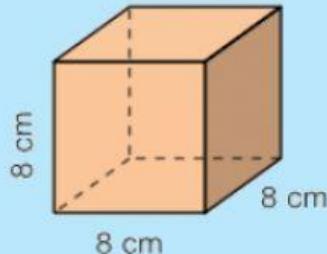

$$\text{Área de la base} = (12 \times 3) = \text{cm}^2; \quad \text{Área de la base} = (5 \times 3) = \text{cm}^2;$$

$$\text{Altura} = \text{cm}; \quad \text{Altura} = \text{cm};$$

$$\text{Volumen} = \text{cm}^3; \quad \text{Volumen} = \text{cm}^3;$$

Ejercicio 2:

Calcula el volumen de cada cuerpo.

$$\text{Volumen} = \text{cm}^3; \quad \text{Volumen} = \text{cm}^3; \quad \text{Volumen} = \text{cm}^3;$$
