VOCABULARY: materials (plastic, paper, glass, metal), actions (reduce, reuse, recycle), elements (water, notebook, can bottle, box, jar, cup, newspaper, jug)

Recycling

Alphabet practice

1. Listen to the song and practice the alphabet and the sound of the letters:

2. Put the waste into the right recycle bin: Drag the pictures to the correct bin:

3. Read the following text:

Recycling is one of the greatest ways to have a positive effect in the world we live in. It is essential for both our natural environment and ourselves. It is our duty to take part as the amount waste of we create is increasing rapidly. My brother Sam loves to recycle and he encourages us all to take part especially when you can get a small income for doing so. Most of us always need a little extra money now and then for different things. One way

he makes some money is by recycling cans, bottles, newspapers, and other containers. He usually gets about thirty dollars a month by recycling most of his rubbish. It is not a lot of money, but he is happy to have a little extra now and then. Most of the time he uses the money to take his wife to the cinema. His wife always looks forward to doing this at the end of every month. Sam has always been careful with his money and teaches his children the importance of money and how to protect the environment by recycling.

Now, read and choose T for TRUE or F for FALSE:
