

Full Blast Plus 4 – Writing a Paragraph expressing opinion (Page 57)

Read the writing task below and write a paragraph expressing your opinion. Use your ideas from activity D.

Computer classes should be compulsory for all students in primary and secondary schools. Do you agree?

Three sentences have been removed from the article. Choose from (A-C) to fit each gap.

Computer literacy is very essential for every student to meet the demands of the technology-driven world. Computer education can equip students with the necessary skills on using computer as well as the Internet. In addition, computers will help students learn more about the world around them and help them keep up with the latest developments. For instance, students will be exposed to the latest gadgets and education resources.

A	The way I see it, computer classes should be made mandatory for all students based on the advantages.
B	Furthermore, learners would be taught software and applications which would be very useful for them to when doing homework, reports or research.
C	Therefore, I strongly agree that that computer classes should be made compulsory for all students.
