

### I. True or False.

1. Velocity of light is greater in denser medium than in rarer medium  
True False
2. The power of lens depends on the focal length of the lens  
True False
3. Increase in the converging power of eye lens cause 'hypermetropia'  
True False
4. The convex lens always gives small virtual image.  
True False
5. Light is a form of energy which travels along a straight line  
True False

### II. Match the following:

	Column - I	Column
1	Retina	Path way of light
2	Pupil	Far point comes closer
3	Ciliary muscles	near point moves away
4	Myopia	Screen of the eye
5	Hypermetropia	Power of accommodation
