

## MULTIPLICATION AND DIVISION UNIT OF VOLUME OF LIQUID.

1 Solve these.

- a  $16 \times 0.39 \text{ l} = \square \text{ l}$     b  $13 \times 5.7 \text{ l} = \square \text{ ml}$     c  $25 \times 0.416 \text{ l} = \square \text{ ml}$   
 d  $48 \times 2\frac{1}{4} \text{ l} = \square \text{ ml}$     e  $100 \times 6\frac{7}{10} \text{ l} = \square \text{ ml}$     f  $1\,000 \times 7.8 \text{ ml} = \square \text{ l}$

2 Complete these.

$$\begin{array}{ccccc} 1\,000 \times 75 \text{ ml} & & 10 \times 0.75 \text{ l} & & 100 \times \frac{3}{4} \text{ l} \\ \hline \square \text{ l} & \text{as} & \square \text{ ml} & \text{as} & \square \text{ l} \end{array}$$

1 Calculate.

- a  $1.2 \text{ l} \div 4 = \square \text{ l}$     b  $9.6 \text{ ml} \div 8 = \square \text{ ml}$   
 c  $25\frac{1}{4} \text{ l} \div 50 = \square \text{ ml}$     d  $60\frac{4}{5} \text{ l} \div 32 = \square \text{ l} \square \text{ ml}$   
 e  $19\frac{7}{10} \text{ l} \div 100 = \square \text{ l}$     f  $43.9 \text{ l} \div 100 = \square \text{ ml}$

2 a Divide 31 l 800 ml by 1 000. Give the answer in ml.

b Calculate 33.36 l divided by 60. State the answer in  **LIVEWORKSHEETS**
