### Reading Activity

#### A. Read and complete the information:

**A**

colour      hide      prey

The colour of some animals like dumpy frogs and polar bears matches the colour of the things around them. This way they can 1) **hide** from their 2) **prey** or predators. These animals use their 3) **colour** as camouflage.

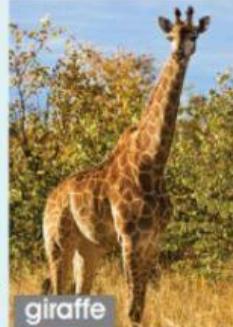

polar bear

umpy frog

**B**

pattern      stripes      see

Some animals, like tigers and giraffes, have got spots, 1) **stripes** and other patterns. It makes it difficult for other animals to 2) **see** them. These animals use 3) **pattern** as camouflage.

giraffe

tiger

**C**

predators      look like      shape

Animals like katydids and pygmy seahorses

1) **look like** another object. This makes it almost impossible for their 2) **predators** to spot them. These animals use their 3) **shape** as camouflage.

katydid

pygmy seahorse
