Instruction: Complete the passage with the correct words.

active – bored – boring – capabilities – choose – curious – friends – identity –
make – managed – popular – psychologist – shape – skills – sociable – take

Max, an African grey parrot has amazed scientists with his language _____. The clever bird can _____ over 50 different objects using English words, and he can also answer questions about their _____, size and colour. Max can even create sentences.

African grey parrots have been _____ for thousands of years. They have been pets since the times of Ancient Egypt, perhaps because they are sociable and funny. They are able to repeat words and phrases they hear, and they can even copy the sound of laughter or a ringing phone. However, Max's _____ show that parrots can actually use language, not just repeat it.

Because they are so intelligent, parrots can get bored easily. They are very active and need things to stimulate their curiosity. Dr. Irena Pepper, a _____, who has been working with Max, created a computer programme in which the parrot could _____ from four activities – watching a video, listening to music, seeing pictures or playing a game. At the beginning Max was _____ and played with the system, but then he got bored with it. The psychologist _____ to get the parrot interested again by changing the content.

Another grey parrot who has been in the news is Sam from New York. Obviously, Sam has an _____ vocabulary of almost a thousand words and can even make jokes.
