After that Finally First Next Secondly Then Thirdly

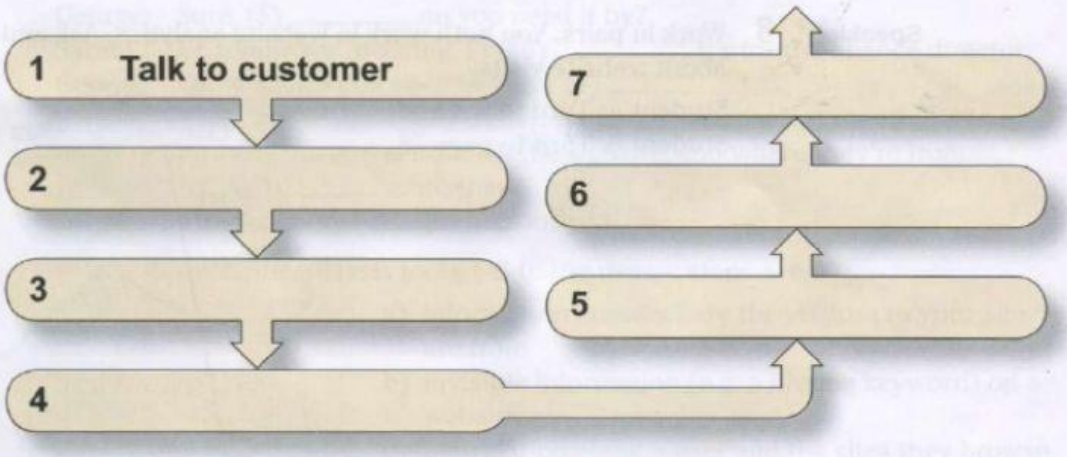

The steps in website development

(1) _____ , discuss with the customer their requirements and the target audience. Find out what features and number of pages they want on their site. (2) _____ , analyse the information from the customer. (3) _____ , create a website specification. (4) _____ design and develop the website. (5) _____ , assign a specialist to write the website content. (6) _____ give the project to programmers for HTML coding. (7) _____ , test the website.

After you publish the website, update and maintain it on an ongoing basis. Monitor customer use.

3 Work in pairs. Complete the flowchart to show the website development process.

Speaking **4** Describe the website development process to another pair in your own words.
