

Writing Algorithm

- Drag and drop to create the algorithm

Steps 01

Steps 02

Steps 03

Steps 04

Steps 05

Steps 06

Start Area = length x width End Get the length of the rectangle

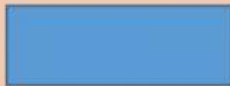

Get the area of the rectangle Get the width of the rectangle

Flow Chart Symbols

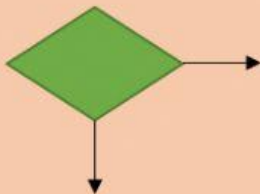

- Match the following

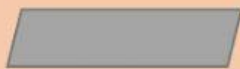

Process

Data Flow

Input/Output

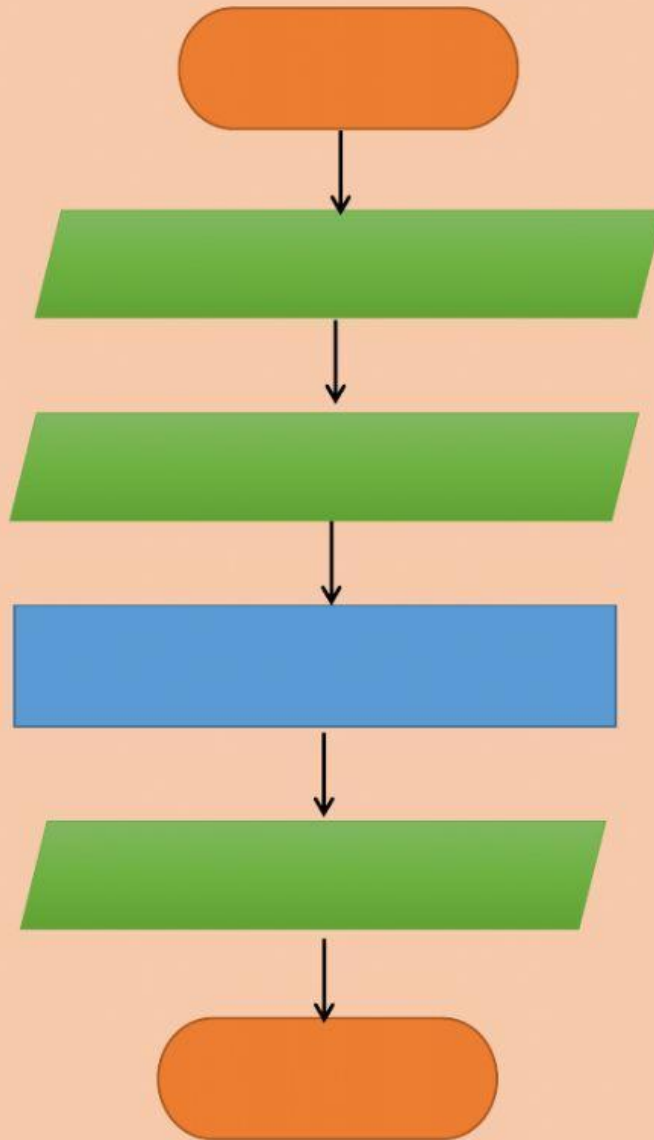

Decision

Start /End

Flow charts

- Drag and drop to complete the flow chart

Start Area = length x width End Get the length of the rectangle

Get the area of the rectangle Get the width of the rectangle
