5. What does the woman say is a common problem people have with singing?
  - a. They lack rhythm.
  - b. They can't produce notes accurately.
  - c. They find it difficult to remember the words.
  
6. Why do the speakers think singing in a choir is beneficial?
  - a. It focuses people's attention on their sense of well-being.
  - b. It makes people forget about their problems.
  - c. It increases people's ability to concentrate.

### Gap-fill

You will hear a student called Max Bignall giving a presentation bout a science club in New York. Complete the sentences below.

#### The Secret Science Club

Max was surprised that one of the founders of the Secret Science Club was a \_\_\_\_\_ rather than a scientist.

The Bell House is used for \_\_\_\_\_ on most weeknights.

Apart from delivering their lecture, presenters at the Secret Science Club often do \_\_\_\_\_ on stage.

The lecture about \_\_\_\_\_ was one that max particularly appreciated.

Max sometimes finds it difficult to understand the \_\_\_\_\_ which follow the lectures.

Max says that \_\_\_\_\_ with leading members of the scientific community is a huge benefit.

Max thinks this club follows the tradition of meetings which took place in European \_\_\_\_\_ in the eighteenth century.

In Max's opinion, the club nights are popular because they make people see the \_\_\_\_\_ of science to ordinary people.
