SCIENCE YEAR 5

ADAPTATION OF PLANTS ON CLIMATES AND SEASONS

PLANTS	CHARACTERISTICS OF ADAPTATION	REASON
	Long roots	
	Water storing stem	
	Folding of leaves	
	Shedding of leaves	
	Pinnate leaves	

	Needle-shaped leaves	
--	----------------------	--

To reduce water loss

can reduce wind resistance and prevent from toppling down during strong wind

to reduce water loss

To absorb water better

to enables them continue living even drought seasons and extreme heat

To avoid excessive loss of water
