VIII. Fill in the blank with a suitable word in the box.

**spend from exercise fit ride
for tired energy in calorie**

We need calories or (1) _____ to do the things every day. For example, when we walk or (2) _____ a bike to school, we spend a certain amount of (3) _____ and even when we sleep, we also use them. But how many calories should we (4) _____ a day to stay in shape? It's difficult (5) _____ us to calculate. If people want to keep (6) _____, they should remember that everyone should have between 1600 and 2500 calories a day.

We get calories (7) _____ the food we eat. If we get too much food and don't take part (8) _____ any activities, we can get fat quickly. So besides studying, we should do some (9) _____, play sports or do the housework, such as cleaning the floor, cooking etc., if we don't eat enough, we feel (10) _____ and weak.

IX. Read the following passage and write T (true) or F (false) for each statement.

How many calories can you burn in one hour? Well, it all depends on the activity. You use calories all the time, even when you are resting. Reading, sleeping, sitting and sunbathing all use about 60 calories an hour. Very light activities use 75 calories. Examples are eating, writing, knitting, shaving, driving and washing up. Light activities which use about 100 calories an hour include playing the piano, getting dressed and having a shower. Under moderate activities which use between 100 and 200 calories an hour we can put walking, doing housework, shopping and skating. Energetic activities use 200-400 calories. Those activities include horse riding, cycling, swimming, skipping and dancing. Finally there are strenuous activities which use up to 600 calories an hour. These activities include climbing stairs, jogging, digging the garden and playing football.

1. Horse riding uses the most amount of calories.
2. Reading uses as many calories as writing.
3. The calories we burn for eating and washing up are the same.
4. Walking is a very light activity.
5. Sunbathing uses more calories than driving.
6. When we are resting, we don't burn calories.
7. Having a shower uses only 100 calories an hour.
8. Cycling and dancing use the same amount of calories
9. Playing football uses fewer calories than swimming.
10. The amount of calories we use an hour depends on the activity we do.
