THE OLYMPIA SCHOOLS

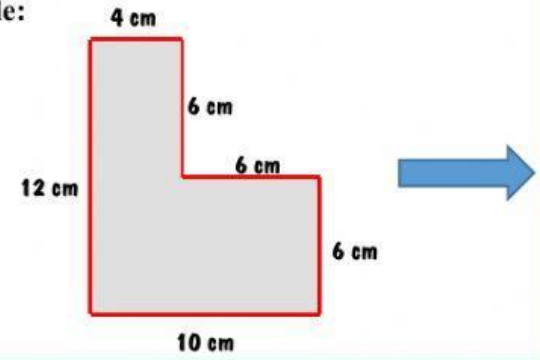

Toán 3
Tuần từ 27/4 đến 1/5

Name: _____ **Class:** ____

Worksheet 1

PERIMETER

A. Visual learning

1/ What is perimeter?	**2/ How to find the perimeter of a shape?**
Perimeter is the distance around a shape. **Example:**  	Using addition all the lengths of that shape. **Example:** 4 + 6 + 6 + 6 + 10 + 12= 44 cm The perimeter of shape is 44 cm.

3/ How to use multiplication to find the perimeter of some special shapes?	
Rectangle *Perimeter = 2 × (length + width)* **Example:**  2 × (3 + 7) = 20 cm The perimeter of rectangle is 20 cm.	Square *Perimeter = 4 × side* **Example:**  4 × 9 = 36 m The perimeter of square is 36 m.

B. Vocabulary

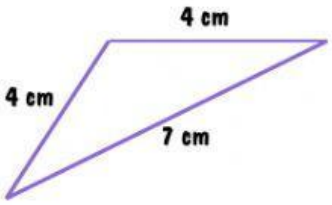

perimeter: chu vi	distance: khoảng cách

LIVEWORKSHEETS

C. Practice

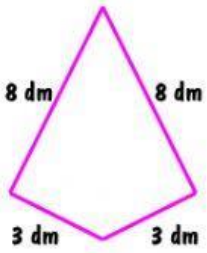

Task 1: Find the perimeter of each following figure.

a.

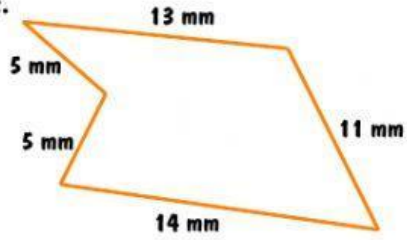

___ + ___ + ___ = ___

b.

___ + ___ + ___ + ___ = ___

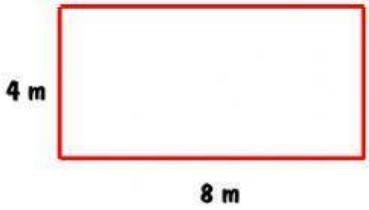

c.

_____

Task 2: Use formula to find the perimeter of rectangle and square below.

a.

___ × (____ + ____) = _____ m

b.

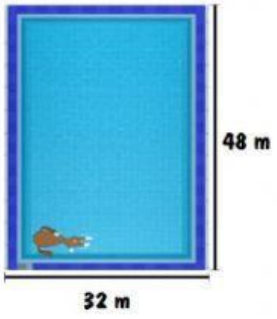

___ × ___ = _____ dm

Task 3: Find the perimeter of the swimming pool.

Knowing that the swimming pool is a rectangle.

Equation: _____

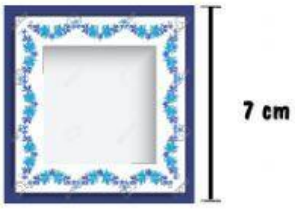

Word answer: _____

Task 4: Nana decorates a square picture frame by ribbon. How many centimeters of ribbon does she need to cover around four sides of the frame?

Equation: _____

Word answer: _____
