Label the parts of a plant.

flower	roots	seeds	stem	leaves	fruits

The Parts of a Plant

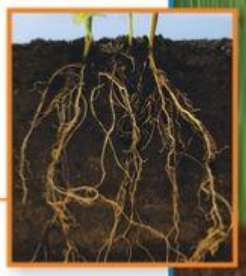

Plants give us food, clothing, and **oxygen**. There are over 250,000 kinds of plants in the world.

Many plants have six parts. Each part has a job to do.

1. _____

_____ come in many shapes and **sizes**. When seeds are in the earth, they grow and become new plants.

2. _____

The _____ of a plant usually grow **underground**. They take in food and water for the plant.

3. _____

The _____ grows up from the roots and helps the plant to stand. It stores food and brings water to other parts of the plant.

4. _____

_____ grow out of the stem. They use the sun to make food for the plant.

5. _____

Many _____ are colorful. They help the plant to make seeds.

6. _____

Some plants grow ____, which have seeds in them. Apples, oranges, and tomatoes are all ____.
